

Makaton is a language programme that gives everyone a helping hand to talk.

Makaton uses signs, symbols and speech to help people communicate. Anne Chapman will take you on a journey unlocking communication routes.

This is what parents who have attended this workshop had to say:

'Anne is amazing at delivering the course. I've learnt so much and am really grateful for the opportunity of being given these new skills'

'Absolutely loved learning Makaton with Anne. It will help so much in communicating with our son'

'Excellent pace and I felt very comfortable at signing and asking questions. Tutor is very knowledgeable.'

'It is a very useful course for me to attend to help my autistic child who is not speaking'
